## PROJECT EXPERIENCE

### Programmer

2020 - 2021

### Tetris Game

I was assigned to make a game for my project for being an IT student, so I thought of the tetris game because it's a classic game from the beginning and I also made it individually because it's still a pandemic.

### Programmer

### Inventory Management System

2022 - 2023

I was in charge by myself in this kind of program . I performed data analysis and also I was monitoring the task if its gonna work and I'm the one who report my work in this task
